

AJ Bell Pactive MPS 5

As of 31/03/2025

Portfolio Commentary

The quarter saw greater divergence within global equity markets, with the US underperforming several regions – an uncommon trend in recent years. Uncertainty in the US rose. Firstly, US AI dominance was questioned by the emergence of DeepSeek in China, then later in the quarter US policy uncertainty raised questions over growth.

Within the portfolio, UK equities made a strong start to the year, supported by the market's sector diversification. The JPM UK Equity Plus allocation benefited from its exposure to the energy and financial sectors.

In Europe, Germany's fiscal policy shift revitalised growth prospects, reshaping market sentiment. The WS Lightman European fund capitalised on this momentum, emerging as one of the portfolio's top performers. Meanwhile, the US lagged due to weak performance from the "Magnificent Seven" companies. However, the portfolio's value-focused Dodge & Cox Worldwide US Stock fund helped cushion some of this downside.

China was the portfolio's standout performer, with positive government overtures toward tech companies leading to a rally in H-shares listed in Hong Kong. However, broader Emerging Markets underperformed.

Overall, Pactive MPS 5 declined by 0.4% over the quarter.
