

Business Development Team

To find out how AJ Bell Investcentre can benefit your business and clients, contact your local Business Development Manager.

Our Business Development Managers are supported by dedicated office-based support staff, who can demonstrate the powerful features of the AJ Bell Investcentre website through online meetings. In this way they can help both existing and potential new users to make the most of the various online tools available. The support team is managed by Mark Wood and can be contacted on 0161 876 2828. Please see the map below for details of your regional support staff.

The Business Development Team is led by Gary Dale, Sales Director, who can be contacted on 07803 426 715.
