

The Funds & Shares Service

What is the Funds & Shares Service?

The Funds & Shares Service (F&SS) is powered by AJ Bell's in-house stockbroker. AJ Bell is a member of the London Stock Exchange, which means we can offer access to a comprehensive range of investment options, while you enjoy greater control over when to buy and sell your investments. It also allows us to react quickly to any changes in demand.

What advantages does the Funds & Shares Service offer?

The list of investments you can access includes collectives (of which the vast majority are clean share classes, investment trusts, Exchange-Traded Funds, Exchange-Traded Commodities, Exchange-Traded Notes, UK equities and gilts, structured products, Venture Capital Trusts (VCTs), corporate bonds, Eurobonds, Real Estate Investment Trusts (REITs) and preferential shares.

When investing via the Funds & Shares Service, your adviser places all deals with us and we send them a notification each time they do. We also keep you updated by placing a contract note in the document store of our website. Alternatively, you can go to investcentre.co.uk at any time to view your investments and see how your portfolio is performing.

Funds & Shares Service XO (F&SS XO)

The Funds & Shares Service also offers an execution-only option, called F&SS XO, which allows you to manage your own investments separately from those managed by your adviser/investment manager. This means you have full control and flexibility over the funds held in your F&SS XO account. You are responsible for managing your account and we will contact you directly regarding any actions you need to take.

Discounted charges

Our £120 +VAT SIPP establishment charge will not apply to any SIPPs applied for online. If you invest £200,000 or more across your SIPP, ISA or GIA, we will waive our SIPP quarterly administration charges too.
