Additional notes

1. Charges

All charges listed are effective from 1 February 2018.

Additional notes 5, 6 and 7 relate exclusively to the charges and rates sections of the same name.

2. Interest rates

For the current interest rate on cash balances, please check our website at www.investcentre.co.uk.

AJ Bell receives payments from banks based on the aggregate cash balances held across all accounts. The amount we receive will vary depending on the total cash balances held and market interest rates. Over the foreseeable future, we expect to receive between 0.25% below and 0.6% above the prevailing base rate for cash held in a SIPP and between 0.25% below and 0.05% above the prevailing base rate for cash held within an ISA or GIA account, although it may be higher or lower when interest rates are volatile. These payments are used to pay interest at the rates shown on our website, and we retain the amount received above these rates to keep our administration, custody and dealing charges low.

3. SIPP initial setup and quarterly administration charges

The initial setup charge is waived if £25,000 or more is invested via the SIPP in the Funds & Shares Service within 12 months of opening the SIPP. The waiver only applies if the Funds & Shares Service was selected as an investment option when the SIPP was first setup. The SIPP quarterly administration fee is waived when more than £200,000 of assets are invested in the Funds & Shares Service. This includes ISA and individual GIA assets provided that some SIPP assets are held in the Funds & Shares Service.

4. Funds & Shares Service

A PTM (Panel on Takeovers and Mergers) levy of £1 is payable on equity trades with a consideration over £10,000 in securities of companies which are incorporated in the UK, Channel Islands or the Isle of Man.

A foreign exchange charge of 0.50% of the value of the transaction will apply to dividends and payments arising from corporate actions that we have to convert into sterling.

Where a foreign exchange charge is payable, we may share a proportion of this charge with our service provider.

5. Funds & Shares Service charges

All relevant charges applicable to the Funds & Shares Service, and other wrapper charges if applicable, also apply to the Funds & Shares Service XO.

The annual custody charge is levied on all assets held within the Funds & Shares Service at the rates stated in this document. The charge covers the costs of holding the underlying investments of your SIPP, ISA or individual GIA that are held in the Funds & Shares Service.

This charge will be based on the value of assets appearing on our system on the last working day of each month in the relevant quarter.

The charge will be applied on a pro rata basis to the wrapper(s) to which assets are assigned within our Funds & Shares Service.

The annual custody charge for each band applies to assets assigned to that band and not the asset value as a whole.

The total annual custody charge will be a blended rate depending on the assets in each band.

The annual custody charge is calculated by combining the value of relevant assets across the Funds & Shares Service of the joint and/or trust account with those of the person selected for this purpose on the joint and/or trust account application form. The blended annual custody charge will be applied proportionately between the joint/trust account and the selected person's account.

Please note that the annual custody charge begins to accrue from the moment assets are entered onto our system. The charge does not apply to investment partners' accounts or off-panel investments.

6. Managed Portfolio Service (MPS)

The MPS charge is levied on all assets held within any account linked to an MPS portfolio and is charged in addition to the Funds & Shares Service annual custody charge. The charge covers the costs of managing the MPS.

This charge will accrue from the first day the account is linked to an MPS portfolio and is based on the value of assets in your account/s. The charge will be deducted on a quarterly basis and ceases to apply on the day the account is unlinked from the MPS portfolio – providing the account is not linked to any other MPS portfolio(s).

Any dealing or switching within the Managed Portfolio Service is charged separately and VAT is payable in addition.

7. Investment partners (SIPP only)

For calculation and charging purposes 'investment partner' includes our Funds & Shares Service and execution-only investment options.

The investment management or dealing charges made by the investment partner are in addition to the SIPP charges shown, and details are available from the relevant investment partner.

We do not apply any transaction charge for transactions within the investment partner accounts.

8. Investments held off-panel (SIPP only)

The off-panel quarterly administration charge is applied, in addition to the SIPP quarterly administration charge, if, at any time during the quarter, any investment (including Trustee Investment Plans and property) is held outside of our panel investment partner options.

The off-panel investment transaction charge does not apply to investment transactions made within an off-panel account.

9. SIPP property

The charges shown in the SIPP property section are intended as an indication only. We reserve the right to make additional or higher charges, if the circumstances warrant it.

Non-standard administration will be charged on a time-cost basis (rates available on request). Work relating to contamination, environmental issues or multiple tenancies will be subject to an additional charge which will be confirmed upon request.

We will advise you at the earliest opportunity of any additional or higher charges that may apply.

Where a property is owned jointly by more than one SIPP, the quarterly property and VAT administration fees are charged proportionately in accordance with the ownership split of the property.

In specie property transfers-in will be treated for charging purposes as a property purchase.

The repayment of borrowing charge applies when a loan is fully repaid, whether or not on sale.

In addition to our charges, all disbursements must be paid from the SIPP. Disbursements will include Stamp Duty Land Tax, land registry fees, search fees, solicitor's, surveyor's and lender's fees. Your professional advisers will provide you with an estimate of these costs when you appoint them to act on behalf of your SIPP.

You, or someone chosen by you, can act as property manager. If the property manager is unfamiliar with SIPP documentation we may make further charges to deal with any additional work that arises.

10. Benefits

The closure charge will apply where flexi-access drawdown or UFPLS payments reduce the value of your SIPP below £1,000 within 12 months of opening. We will be entitled to close your account and return the remaining funds to you, after deducting our charges. For accounts closed 12 months or more after opening, an account closure charge of £75 will apply.

11. If you no longer have an adviser

The AJ Bell Investcentre platform is for use in conjunction with registered advisers only. If you no longer have a registered adviser, an additional charge will be applied to take into consideration the additional work involved. The amount of this charge will be advised to you at the relevant time.

12. General

Bank charges may apply if a regular payment, for example a Direct Debit, is rejected due to lack of funds.

13. Terms and conditions

This charges and rates schedule should be read in conjunction with the AJ Bell Investcentre terms and conditions.
