

# Passive Income MPS 1

As at 31 December 2023

## Investment objective

AJ Bell Passive MPS Income 1 aims to minimise the risk of losing value, whilst delivering a sustainable income when measured over a period of at least five years.

Over shorter periods the portfolio may lose value, including sharp falls in certain market conditions, as it invests in securities that can go both up and down in price.

## Investment approach

By spreading out the investments across regions, sectors and different types of assets, the portfolio aims to achieve its return objective whilst minimising price variation where possible. It does so by investing mainly in collective investments, such as index funds and ETFs. These products hold different types of securities such as cash and bonds and company shares.

The AJ Bell investments team uses in-house modelling to deliver a long-term approach that combines different assets. This aims to efficiently deliver returns without compromising investors' tolerance for risk.

To deliver income the portfolio invests in a wide range of income focused index strategies. Our focus on long-term investing helps minimise transaction costs, ensuring that there is minimal impact on the portfolio, however the asset allocation and selection is constantly monitored, and underlying holdings will be changed when appropriate.

## Top 10 holdings (weight %)

## Performance

Discrete (%)	Dec 2022 - Dec 2023	Dec 2021 - Dec 2022	Dec 2020 - Dec 2021	Dec 2019 - Dec 2020	Dec 2018 - Dec 2019
Passive Income MPS 1	5.62	-0.23	9.16	2.10	12.29

(3) The above table shows the total return of the portfolio during each one-year time period stated.

Cumulative (non-annualised %)	Dec 2022 - Dec 2023	Dec 2021 - Dec 2023	Dec 2020 - Dec 2023	Dec 2019 - Dec 2023	Dec 2018 - Dec 2023
Passive Income MPS 1	5.62	5.38	15.02	17.44	31.86

(4) The above table shows the total return of the portfolio on a cumulative basis over the previous five years. This is taken from the most recent month end.

Source: Morningstar as at 31 December 2023.

Performance is calculated on a net of fees basis.

Performance reflects the headline model and includes the underlying costs of the holdings and the annual investment management charge. It does not include any transaction costs that would have been incurred through rebalancing or changing any underlying holdings. This model was launched on 19 February 2018.

## Fees and charges

Ongoing charges figure (OCF)	0.38%
Transaction costs	0.09%
Total indicative charge	0.47%

Ongoing Charges Figure (OCF) is inclusive of the AJ Bell Investments Annual Management Charge (fee of 0.15%) and the ongoing charges of underlying investments. MPS transaction costs reflect the aggregated transaction costs reported by underlying products. In some instances products may deploy pricing mechanisms which can result in negative costs. Additional costs will be incurred while using the MPS. These include (where applicable) platform costs and dealing costs. Any charges payable to your financial adviser will apply in addition. Therefore, the actual performance of your portfolio might differ from the stated past performance. There is no set minimum investment into the MPS, however, the structure of the underlying investments means that the portfolios work more efficiently for investments above a certain size. For the Passive MPS, this is around £20,000. It should be noted that the smaller the investment amount, the greater the impact of transaction costs will be on the investment.

Based on the current composition of the portfolio and the most recent dividend and income payments made by these holdings we can estimate the target income yield the portfolio will generate over a trailing 3-year period. It is important to note that historic income and dividend payments are not always a reliable indicator of future income payments, especially in periods of market stress.

Target income	3.00% - 5.00%
---------------	---------------

Subject to regulatory requirements, the portfolio will normally remain fully invested. There is, however, no restriction on the underlying content of the investments held in terms of investment type and geographical or economic sector (other than those imposed by the regulations). This means that AJ Bell Investments can, at its own discretion, weight the portfolio towards any investment type or sector, including cash, at any time. For further details of all applicable costs, please speak to your financial adviser or visit [www.investcentre.co.uk](http://www.investcentre.co.uk).

(1) The AJ Bell Managed Portfolio Service (MPS) have been risk mapped by independent risk profiling services. View our Risk Profiling Tools document on [www.investcentre.co.uk/support/infocentre](http://www.investcentre.co.uk/support/infocentre) for further information on our risk profilers. The assigned risk profiles do not indicate a promise, forecast or illustration of future volatility or returns nor represent investment advice or a recommendation to buy or sell units/shares in a fund or portfolio.

Allocation and performance information contained in this document is representative of the standard Passive Income MPS 1 model held on AJ Bell Investcentre. The implementation of this model may vary when held via other platforms, for example, where access to certain share classes is restricted. This may lead to differences in allocation, performance and cost.

Past performance is not indicative of future performance. The value of investments may go down as well as up and the income generated by investments is not guaranteed and may fluctuate. You may receive back less than the amount that you invested.
